PRESIDENT WILSON DENOUNCED CONGRESS FOR ITS FAILURES

In Telegram to Railroad Labor Organizations, the President Scored Congress.

Washington, June 5.—President Wilson today denounced congress for its failure to enact constructive legislation in a telegram addressed to the heads of the railroad labor organizations. The telegram was in reply to the one received from the heads of seventeen railroad labor organizations protesting against adjournment of congress when no constructive legislation had been enacted to prevent profiteering or to reduce the high cost of living.

The president scored congress for its failure to deal directly with the cost of living and for its failure to revise the tax laws which in its present form is directly responsible in part for the high cost of living.

BOY SCOUTS CAMP PLANS DISCUSSED

TO BE HELD PROBABLY ON GRAND RIVER NEAR DARLINGTON.

WILL BE HELD JULY 17-26

Another Scout Master Is Needed Here as a Number of Other Boys Are Anxious to Join.

Arrangements are being discussed and made for the annual encampment of the Maryville Boy Scouts which will probably be held from July 17 to 26. While the location for the camp has not been definitely decided on, it is thought it will be held at the Greenwell Ford near Darlington. It is an ideal place for a camp.

It is figured it will be necessary to raise $200 for the expenses of the camp and the boys. It is forty miles from Maryville to Darlington and the expenses of hauling the boys there will not be very much. The railroad fare is $1.16 one way.

Another Scout Master is needed as a number of boys are wanting to join the organization. There are thirty-two members now with M. A. Peery as Scout Master, and Paul Miller and Clifford Hull as assistants. Others anxious to join are unable to do so as the limit is placed at thirty-two under one Scout Master.

Other Boy Scouts from nearby towns are also talking of joining the camp for the Maryville boys. Gentry and Albany will have their Boy Scouts. Frank Green, formerly of Maryville, but now of Hannibal, is expecting to bring ten Scouts from that city to the camp.

BRECKENRIDGE LONG TRIES TO "HEAD OFF" FOES.

Jefferson City, June 5. — Breckenridge Long of St. Louis, Democratic candidate for United States senator, filed a protest here last night by telegraph with Secretary of State Sullivan against the filings of declarations for United States senator on the Democratic ticket by Judge H. S. Priest and C. M. Hay of St. Louis and the Rev. Arthur N. Lindsey of Clinton. He bases his protest on the ground that to be legal and comply with the primary law those declarations should have been filed Thursday, whereas all of them were filed Friday. He contends that the primary law requires all declarations to be filed at least sixty days prior to the state primary, and that this limit expired at midnight Thursday.

Lawyers here say that Long is mistaken, and the secretary of state adheres to his decision that the limit expired at midnight last night.

Will Montgomery Still Improving.

A phone message from St. Joseph today stated that the condition of William J. Montgomery was somewhat better and that some of the packing put in after the operation had been removed. Mr. Montgomery was able to be shaved this morning. His physicians report, however, he will not be out of danger for several days yet.

NO LEADER AT THE G.O.P. CONVENTION

MUCH CONFUSION ON THE EVE OF THEIR CONVENTION WEEK.

CHARGES 'STEAM ROLLER'

Senator Moses Also Claims That Chairman Hays Has Been Unfair in the Contests.

Chicago, June 5.—There were unprecedented outstanding features of the Republican situation today on the eve of their convention week. From a practical standpoint the convention is leaderless. The incoming delegates show general symptoms they will be at any moment for any one of the eight prominently mentioned presidential candidates. Although the week's developments have badly shuffled the cards of Governor Lowden and General Wood, a dark horse is not improbable. The probability of not more than one-third of the 984 delegates is actually under pledge and many of these pledges are "wobbly" is causing confusion. Other features are Senator Penrose's illness, the strange mixup of the southern delegates who heretofore have been "delivered at the psychological moment, party disputes concerning the form of the peace treaty and the failure of any strong hand to assert general party control.

Chicago, June 5.—A threat of a coalition between the Wood and Johnson forces to assume charge of the convention situation, which was served upon Lowden leaders and the national committee by Senator George H. Moses, one of Wood's managers, last night created a sensation, tempered only by the knowledge that became available later that Moses had spoken on his own authority and without consulting the other Wood campaign managers.

But it opened up a wide field of speculation as to possible combinations and set the milling politicians to guessing.

The Moses statement, hinting at a possible Wood - Johnson coalition against the old guard, was coupled with a hot blast at the Republican national committee, following its action today in seating the Lowden delegates at large from Georgia over the Wood delegates. A white delegation was upset for a negro slate. Senator Moses, who had conducted the Wood canvass in the South, charged that the committee, personally friendly to Lowden, was overturning regularly elected Wood delegates simply to help Lowden, and not upon the merits of the contests. The old 1912 steam roller was out in force, Moses said.

He also hit at Will Hays, national chairman. Mr. Hays declined to make any reply to the charges.

Sidelights of the Convention.

Chicago, June 5.—"Bryan interviewed me today," Governor Lowden remarked to the correspondents.

"Give us your impressions," newspaper correspondents asked the Nebraska Democrat. "Don't forget the press honor among us," Bryan chuckled. "I am a correspondent too, and we musn't rob each other."

Alice Paul, leader of the Washington militants, has arrived to stir up a fight there for failing to answer her insistent question, "do you want women to vote in 1920?"

Miss Vada Foland will leave tonight for Kansas City for a visit with her brother, Ray. From there she will go to Le Roy, Kansas and visit her cousins, Miss Leona and Hazel Ferguson. Miss Foland expects to be gone about two weeks.

$22,000 Paid for Grass Seed.

According to W. C. Swarner in the county farm notes, J. E. Weller of Maitland bought $22,000 worth of blue grass seed last season from the farmers of this section. Mr. Weller says of stripping blue grass for the seed. It is a fact that some farmers made more money on their blue grass seed last season than they did on any other crop and were not out nearly so much for labor and expense. One boy with a hand stripper made $17.50 in one day. In a recent article in the Missouri Ruralist by John F. Case, he shows that four northwest Missouri counties, Holt, Gentry, Nodaway and DeKalb, probably produce 100,000 bushels of the total amount produced in the state, and the total amount is estimated at 150,000 bushels.—Maitland Herald.

MISSOURI WOMEN PROTEST AGAINST FALL STYLE CHANGE

State Chairman of Women's Activities Takes Up Matter in Behalf of Campaign.

M. Printz of Cleveland, Chairman of the National Cloak, Suit and Skirt Manufacturers Association, announced last week that prices for women's garments will be higher next fall because his Association had adopted the report of its Style Committee to feature longer coats and skirts.

This has called down a storm of protest because women don't want radical changes in styles and feel that they are unjustified at this time.

In the name of the great numbers of women who have pledged themselves to economize, Mrs. John R. Leighty, State Chairman, Missouri Women's Activities, H. C. L. Campaign has sent Mr. Printz the following telegram:

"The women of Missouri protest against changes in fall garments, for women, adopted by your association. This is no time for radical changes from present styles—either for manufacturer or buying public.

By continued sane and conservative buying and the wearing of old clothes until this crisis is safely passed the women hope and expect to stabilize the retail market.

"The present price-slashing is not in response to an hysterical demand on the part of the buying public as has been stated," says Mrs. Leighty, "but is the result of the women's organized refusal to pay high prices. The merchants have thus been forced to the expediency of 'Sales' in order to tempt people into their stores. Otherwise they could not cash in their surplus stock of goods."

WALKER BURIAL RITES HELD AT BURLINGTON JCT. MONDAY

Mrs. Mary Ellen Walker Dies From Paralysis. Lived in County for Over Fifty Years.

Funeral services for Mrs. Mary Ellen Walker, who died Friday of last week at the home of her sister, Mrs. Gertie Garnett of Blackwell, Okla., were held Monday afternoon at the Methodist church in Burlington Junction. They were conducted by Rev. Ernest Snider. Burial was in the Ohio cemetery.

Mrs. Walker's death was due to a stroke of paralysis. She was 71 years old and had been a resident of Burlington Junction and vicinity for more than fifty years. She had been visiting her sister since the first of April.

Mrs. Walker, whose maiden name was Mogg, moved with her parents to Burlington Junction in 1864. In 1869 she was married to Christian Lee Walker.

Mrs. Walker is survived by four sons, Frank D., Fred M., John A. and J. Earl Walker, all of near Burlington. She is also survived by two daughters, Mrs. Garnett of Blackwell, Okla., and Mrs. Lorina Wertenbaugh of Oklahoma City, Okla., and twenty-three grandchildren.

NO ACTION ON REFUND UNTIL COURT MAKES FINAL RULING

State Auditor Says No Definite Plan Can be Announced Until the Supreme Court Acts.

Jefferson City, June 4.—State Auditor George E. Hackman said yesterday that if there is no further change made by the supreme court in ruling of the income tax, he believes a way can be devised whereby the refund of the amount of overpaid income taxes can be made by the collector to those who have already paid.

If this plan is followed it will avoid long delay in waiting for relief bills to be passed by the legislature. Hackman has figured out that if the ruling of the supreme court remains unchanged that exactly 60 per cent of the income tax for the year 1919 must be taxed at the rate of one-half of 1 per cent and the other 40 per cent at the rate of 1½ per cent. That is to say, 219 days of that year were under the old rate and 146 days under the increased rate. Or in other words the taxpayer will be entitled to a refund of 40 per cent of the amount he has paid or to deduct 40 per cent from the charge if it has not been paid.

The supreme court has not yet acted upon the motion for rehearing filed by Attorney General McAllister in the income tax case decided last Monday, in which it was held to be retroactive as to application of the rate of 6½ per cent for the full year of 1919. Until this motion is disposed of the case is not finally disposed of and no definite plan can be announced by the state officers.

PIERCE SENDS CONGRATULATIONS ON ANTI-BOSS VICTORY.

W. C. Pierce of this city who led the fight at the recent State Republican convention at Kansas City for the anti-boss forces in the city wired his congratulation yesterday on the victory of the anti-boss forces at Chicago when the Hickey-Marks delegates were denied seats in the Republican national convention by the national committee. Today Mr. Pierce received the following message from Matt Foster, who is one of the prominent leaders of the anti-boss crowd in Kansas City:

"Your telegram of congratulation is much appreciated. The Republicans of the fifth district are under everlasting obligation to you for the fearless and untiring manner in which you stood up for decency and the will of the majority in the state convention. We must all leave this to serve as an inspiration to fight on until Missouri is cleared from the rottenness which permeates to the very core, in order that the state may be placed permanently in the Republican column and insure to the people a government free from the conditions which now exist."

TENTATIVE PROGRAM OF CONVENTION CALLS FOR BALLOTING.

Chicago, June 5.—Nominating speeches in the Republican national convention next week probably will come on Thursday with balloting on Friday, L. W. Henley, secretary of the Arrangements Committee, announced today. Following the keynote speech of Senator Lodge of Massachusetts, temporary chairman, and appointment of committees on Tuesday, Henley said the convention probably would adjourn until Wednesday for committee work.

Permanent organization, rules and order of business are on Wednesday's tentative program, after the nominating speeches Thursday. Henley said the temporary program would leave Friday and Saturday and possibly part of Monday for balloting and consideration of platform.

There are more than 150,000 applications for tickets for 13,239 seats, Henley stated, and 1100 applications for 576 press seats. Increased interest of women in politics is one reason for the ticket demands.

Deadbroke (borrowing five): Words can never repay this kindness, old man. The other: You're right—unless they are the kind used by money when it talks.—Boston Transcript.

WANTED—WORK, NOT TIME.

Though you dress like a tailor, or swear like a sailor, or pile on the fashion and style, you may think you're a wonder and shake things like thunder, just remember that other folks smile. For, while you sit smirking, this old world is working and toiling along on the road, while you sit in the shade and your wisdom parade watching somebody else pull your load. Don't it make you feel sometimes that you are a stick? Just a small bit of driftwood at sea? Would it make you feel busy, should you ever get busy, like the provident wide faring bee? This world doesn't care for your time or your talk: What it needs is your work, not your time; for the work of today is the thing that makes hay and the hours don't amount to a dime. You will find that the lazy man carries a watch and is overly careful to see, that it always keeps going. It sounds like a joke, but it's true as true can be.

—CARL WRAY, Guilford, Mo.

The Burmese mile, which is equal to two English miles, is described by a word meaning "to sit," being the distance that a man walks before he regards it as necessary to sit down.

Buying out the Railroads

If all the farmers in the United States should sell all their livestock and all the crops they raise this year, they would have money enough to buy all the railroads in the Nation. That's how big the farming business is. Worth knowing about—eh?

The COUNTRY GENTLEMAN

carries to its readers each week the news of this eighty-billion-dollar business. It tells of successes—and the failures, too—of farmers in every state.

The farmers right round this town have a part in that $80,000,000,000; preachers and lawyers and doctors here in town are getting their living, directly or indirectly, from the farmers. . . . Do you read THE COUNTRY GENTLEMAN? Regularly? Every week? If you don't you're not keeping very closely in touch with this farming business that could buy the whole town. Better subscribe. Costs only $1.00 for a whole year—fifty-two big weekly issues—and it will put before you the whole Nation's farming—from the backyard garden to the million-acre ranch in Texas.

MAY AFFECT 'DRY' LAW REFERENDUM

OHIO DECISION MAY HAVE BEARING ON CASE IN THIS STATE.

NOW PENDING IN COURT

Are Trying to Prevent Submission of Prohibition to the Voters of Missouri at the Coming Election.

Jefferson City, June 3.—What effect the decision of the U. S. Supreme court in Washington, holding that ratification of amendments to the Federal constitutions by state legislatures or convention, is sufficient acceptance by individual states of such amendments, will have on the dry law referendum case now pending in the Missouri supreme court, was a subject of discussion today.

The Washington decision, handed down in the appeal of the case of a citizen of Ohio, in which state a referendum was held and the voters decided against national prohibition after the state legislature had ratified the amendments, may, in the opinion of some authorities, set a precedent for the Missouri court. The fact that the highest court in the land had declared the Ohio referendum unconstitutional, led many to believe that the Missouri court may follow its example and grant the injunction asked by the "dry" forces of Missouri to prevent the submission of the prohibition question to the voters of this state, at the next general election.

Attorney General McAllister stated that until he had read the opinion of the U. S. Supreme Court in full, he could not determine how the Washington decision could affect the pending proceedings here.

The "dry" forces jubilantly believe that the decision of the U. S. Supreme Court definitely upholds the contention of Elmer Ball, general attorney for the Missouri anti-saloon league, in his argument before the Missouri supreme court May 7, that ratification by the general assembly of a Federal constitutional amendment is not subject to the referendum laws of the state.

The case pending is that of C. C. Carson of Jefferson City, to enjoin Attorney General McAllister and Secretary of State Sullivan from placing the question of prohibition ratification on the general election ballot in compliance with the petition said to have been signed by approximately 100,000 voters of the state. The case was thrown out of the Cole County court on demurrer and Ball, as attorney for the "drys" appealed to the state supreme court.

Attorney General McAllister, in his comment on the high court decision stated that the referendum laws of Ohio may differ from those of Missouri and that the U. S. Supreme Court opinion may not, therefore, effect the Missouri case so much as it now appears.

Probably without a parallel in the shoemaking industry is the record of service of Mrs. Lydia Ann Varney, who for fifty-six years has been a shoeworker in Brockton, Mass. For twenty-two years she has been working in the same factory and at the same machine.

Endless Chain of Strikes.

From The Sun and New York Herald.

When a union man with the strike habit kicks about theprice and scarcity of sugar it would be well if the grocers could show him a chart which appears in the latest issue of the American Sugar Bulletin.

The chart shows that from the first of January to the present time there has not been a day when the manufacture or shipment of sugar has not been impeded by strikes.

Plantation workers went out in Hawaii and Porto Rico. Refinery employes struck in Chalmette and Revere. Dock workers struck in Havana, Jamaica, New Orleans and Boston. Boatmen struck in New York and Philadelphia. The railroad strike added to the agony.

Sugar, of course, is but one of many important industries. All the others could be charted the same way. Business is completely interlocked and a strike in one line affects practically all the other lines.

The striking switchman who growls because there is not sugar in the bowl must remember that he was one of the causes. And he is being blamed by the Havana dock laborer who has no flour in the bin.

If the CHALMERS Engine Had Windows You Would See These Revolutionary Processes

THE great thing about a motor car, after all, is how it transforms the energy that nature stored away in gasoline into horsepower.

Chalmers today leads in this, and the automobile industry to a large extent has accepted the Chalmers principles by which power is wrung from "gas."

If the Chalmers engine had windows you would witness these two amazing processes.

You would see the Hot Spot heat up and, like a hot stove sending up into steam water dropped on it, transform the raw, inferior "gas" of the day into a "vapor cloud."

You would see the instantaneous change from a "rainy liquid gas" to a so-called "dry gas."

Then you would look through Ram's-horn and note this "vapor cloud" being rushed at a velocity of one hundred miles an hour through easy air bends an equal but short distance to each cylinder.

You would see the explosions in the cylinders, how much of this "cloud" was converted into power, how little was wasted through the exhaust.

You would note, too, how even and smooth these explosions were, and how absent the element of vibration that raises so much havoc in a car.

You would understand clearly how such troubles as frequently fouled spark plugs, burned bearings, and scored cylinders are absent in a Chalmers.

Your conclusion would be identical with so many others: that Chalmers is one of the few great cars of the world.

Corn Belt Conversation.

Worry is the mental rat in the corn crib of life.

It should be a crime to paint a house yellow and the barn green.

Stacking the straw over by the ditch shows the lack of a lot of foresight.

Good live stock and good farming are so often found in the same plantation.

"Water in the farm house" should come either before or the next thing after the automobile.

Every farm and country home should feed itself, and to do this it is necessary for each family to grow a garden and small fruits.

Why a farmer is forced to pay so much more for health and accident insurance than a merchant or professional man in town or city is an unsolved mystery.

It is jointly the duty of every farmer to plant and grow his share of fruit, nut and shade trees—and this is the year to get right before you get left.—By Jewell Mayes.

LABOR LEADERS WANT FALL'S REPORT REPUDIATED BY SENATE.

Montreal, June 5.—Demand on the American senate to repudiate the report on Mexico made by a committee headed by Senator Fall will be made during the convention of the American Federation of Labor which opens here Monday, it was learned today. Those leading the opposition to the report charge it was inspired by oil interests and other exploiters of Mexican resources. They further allege Fall's activities are imperiling the Latin-American countries' faith in the United States government.

HILGERT CITIZEN SINCE 1878, LOST THE PAPERS.

Michael Hilgert of St. Joseph, who applied recently in federal court for naturalization papers, received his citizenship papers in 1878 in Nodaway county, but the loss of the records there and the fact that he has lost his own copy of his naturalization papers has made it necessary to make a second application. Hilgert has affidavits to the effect that naturalization papers were issued to him at that time. He has lived in St. Joseph thirty-two years, and was a resident of Nodaway county before that. He has voted and served on juries here and otherwise exercised a citizen's rights.—St. Joseph Gazette.

WHO GETS ROLLED LAST GETS ROLLED BEST.

The following editorial was in last night's Kansas City Star:

W. C. Pierce of Maryville, Mo., championed the cause of the anti-boss Republicans at the state convention in this city recently and was "rolled." Mr. Pierce must understand now that the man who gets rolled last gets rolled best, if the national committee does the rolling.

GOLD WEDDING RINGS NO LONGER STYLISH.

Chicago, June 5.—The plain gold wedding ring is out of style. Frank Le Bron, of New York, vice-president of the United Jewelers' Association, told the mid-western convention of the organization here.

"Gold itself is becoming passe," he said. "To be in style, you must wear green or white gold. The new style wedding ring is beautifully engraved with orange blossoms. White gold is preferable for wedding rings, because green is symbolic of jealousy."

Men also said wrist watches are going out and pendant watches on a black cord or gold chain are coming in.

Best Job Lasts One Day.

Detroit, June 5.—For one day Robert C. Hooper, of Connellville, Pa., held the best job in Detroit.

Robert was hired to pour wine into bottles in the laboratories of the Frederick Stearns Drug Company, but poured so much into himself that he was found Wednesday evening unconscious in gutter near the plant.

Judge Marsh fined him $8 which hardly covers the cost of the materials involved.

A Record Tip.

Sacramento, Cal., June 5.—The state of California may receive the record "tip."

Some time ago Harry A. Hastings, San Francisco bell hop, died without known heirs, leaving an estate of $28,575.00 his accumulation of "tip" acquired during long service as a bell hop in a San Francisco club.

Under the State law the fund which now reposes in the State Treasury will be held five years, and if unclaimed by legal heirs the whole amount will revert to the State.

Mrs. J. M. Neal will leave Wednesday of next week for Douglas, Wyo. to spend the summer with her son, Melvin Neal and cousin, Edgar McClurg.

"MUD BALL" STORM IN KANSAS KILLS CATTLE.

Smith Centre, Kans., June 1.—Now comes a "mud ball storm" in Kansas.

Rain, falling through huge clouds of dust near here the other day formed large mudballs, some of them weighing in the neighborhood of five pounds. They froze after forming and when they struck the earth, were missiles not to be reckoned lightly with.

Several horses and cattle in pastures were killed and in many instances roofs penetrated.

According to "old timers," the phenomenon occurred in the spring of 1889 and was much worse.

To Finish by April 1, 1922.

We stated in our last week's issue that the Reise Construction had been let the contract to dig the Platte Valley Drainage District at 13c per cubic yard. The length of Platte river at present is 25.93 miles, but by digging or shortening same will make it but 12.66 miles or about half the present length. The digging of the ditch is to commence not later than November 1, 1920, and to be finished not later than April 1, 1922. The Reise Construction Co. can be depended up as fulfilling their contract.—Parnell Sentinel.

To Have "City Mother."

Denver.—Denver is to have a "city Mother," to "educate, warn and safeguard" the young men and women of the city.

Local W. C. T. U. workers have decided upon this innovation as a means of eliminating vice.

In a resolution unanimously adopted at a conference of members of the Colorado Women's Christian Temperance Union belief in the single standard of purity for both sexes is declared, and, "because our young people are not sufficiently informed as to the sacredness of the temple of God in which they dwell," it was resolved that "a proper woman shall be secured who shall be a "City Mother."

The duties of a "City Mother," according to the resolution, shall be "to teach, to warn and safeguard the young; to cooperate with other agencies to eliminate the evil of immorality, and to support for public office only those men who pledge themselves faithfully to enforce the laws against vice."

WE ALL KNOW HIM.

Here is something you might stick in your hatband: "If I owned a newspaper, what I would say in it just now would be a plenty," remarked a man the other day.

He was invited to write what he wanted to say with the assurance that it would be printed if his signature accompanied it.

He very promptly denied the tender, remarking that "it would hurt his business." There are a lot of people willing, anxious in fact, for things to be said in the newspapers providing they hurt the business of somebody else and not their own.

What newspaper has not had this same experience with this very same yellow tadpole of a citizen who sputters and sputters about what ought to be omitted? And yet when you invite the coward to be responsible for the manuscript he wants you to publish, he will whine like a sick dog, skulk behind this pretext and that and wobbles out of the office with a grouch.—Leader, Langdon, Kansas.
